## E-Governance Solutions

We are one of the few IT companies with an exclusive focus on providing e-Governance solutions with a comparable performance. These solutions and expertise can have wider applicability within India and Overseas. Success of e-Government projects depends not only on the technological skills but also on deep knowledge of Government processes. We have successfully demonstrated this in most of its e-government projects in varied government & public sectors.

## E-Commerce Solution

To be a successful online store, clients need to instill trust in your customer. Our secure online shopping & payment engine will enable you to establish a successful e-commerce website on the internet in a user-friendly manner. Our affordable solutions will enable you to get your e-commerce website up and running with the minimum efforts & enable your business to start selling online immediately.

## Cloud & IT Managed Services

Be it government or mid-sized to large Corporate, our IT managed services team can architect, custom build & manage IT infrastructure to our clients specific requirement and provide a cost effective IT Managed Services along with our software solutions. This provides a high Return On Investment (ROI) & improves service level satisfaction, end-user productivity through streamlined processes of centralizing 24 x 7 IT support & training. We can also provide a need based Integrated Services Management facilities that support every level of IT services.

Our support not limited to data center & infrastructure management, but also to provide required IT professionals to client site on outsourced model. Our IT services available at every level that apply industry best practices and adhere to regulatory compliance standards.

## Digitization Solution & Document Management Systems

In every organization, all information is stored in physical documents only. Enormous time is wasted in search for documents and information. A risk of losing these documents to natural calamities and hazards is possible. Regulatory requirements increase the complexities and costs of managing these documents. To overcome this, we digitize & protect all documents of any size and convert into searchable electronic format. We provide total turnkey Document Management solution

- Complete Document Management Solution for digitalizing or archiving
- Archiving day-to-day office documents such as contracts, purchase orders, customer statements, patents,
- Facilitates for searching, retrieving and accessing documents from a web browser or from any location.
- Tagging, classification, retrieval and distribution of documents
- Our digitization solutions are scalable i.e., allows to adapt to the requirements of a growing organization
